PROFILE

Software Engineer with hands-on experience developing full-stack web applications and AI-powered solutions using Java, Python, JavaScript, Node.js, MySQL, and Microsoft Azure. Experienced in designing scalable applications, optimizing backend performance, deploying cloud-based solutions, and collaborating using Git-based development workflows. Passionate about building reliable software and leveraging AI-assisted development tools to improve engineering productivity.

EDUCATION

Bachelor of Computer Applications (BCA), Haridwar University, Roorkee 09/2023 – 2026
Intermediate (Class XII), Vidya Vikasnee Inter College, Gurukul Narsan 07/2021 – 12/2022
High School (Class X), Vidya Vikasnee Inter College, Gurukul Narsan

PROFESSIONAL EXPERIENCE

CertED Technologies | Full Stack Web Development Intern

- Developed **5+ responsive web modules** using modern web technologies, improving UI consistency and reducing page load time by **20%**.
- Developed backend modules using **Node.js** and **MySQL** for dynamic web applications.
- Optimized SQL queries, reducing database response time and improving application performance.

ONLEI TECHNOLOGIES | Data Science Intern (Remote)

- Processed and analyzed structured datasets using Python, enabling efficient machine learning workflows.
- Developed **classification models** achieving **85% accuracy** through data preprocessing and feature engineering.
- Created insightful **data visualizations** using **Matplotlib** and **Seaborn** to support data-driven decision-making.

PROJECTS

Maps App – Full Stack Geospatial Application (GitHub)

- Built a full-stack geospatial platform using **Node.js** and **MongoDB** for real-time location search.
- Integrated **REST APIs** and implemented geospatial indexing, improving query performance by **30%**.
- Designed a responsive user interface for seamless user experience across devices.

CopilotX - Your AI Future (GitHub)

- Developed an AI-powered chatbot using **JavaScript** for contextual user interactions.
- Engineered a modular application architecture with efficient text-processing logic for scalable request handling.
- Deployed the application on **Microsoft Azure** with **CI/CD automation using GitHub Actions**, enabling reliable and streamlined deployments.

TECH SKILLS

- Programming Languages:** C++, Java, Python, JavaScript
- Frontend:** HTML5, CSS3, JavaScript
- Backend:** Node.js, REST APIs
- Concepts:** Data Structures & Algorithms, Artificial Intelligence
- Databases:** MySQL, MongoDB
- Cloud & Tools:** Git, GitHub, VS Code, Microsoft Azure

CERTIFICATES

Microsoft Applied Skills: Get Started with Azure Management Tasks — Microsoft
Career Essentials in Generative AI by Microsoft and LinkedIn — Microsoft & LinkedIn Learning
Oracle Cloud Infrastructure 2025 Certified AI Foundation Associate — Oracle
Python for Data Science — NPTEL, IITs (Ministry of Education)
Introduction to Secure Networking — Microsoft (Coursera)

ACHIEVEMENTS

- Achieved **100% score** in the NPTEL **Programming in Java** certification course conducted by Indian Institute of Technology Kharagpur (Elite Certificate, 2026) ([Link](#))
- Contributed to open-source projects through GitHub-based collaboration and version control workflows.
